TABLE OF CONTENTS

No. 1 January–February 1994
Issued 6 April 1994

Presidential Address

1–17 Minute mycological mysteries: the influence of arthropods on the lives of fungi
M. Blackwell

Annual Lecture

18–48 Jelly fungi, then and now!
K. Wells

Cell Biology/Ultrastructure

49–56 Mycoparasitism of some *Tremella* species
W. Zugmaier, R. Bauer, and F. Oberwinkler

57–71 The ultrastructural development of sporangiospores in multispored sporangia of *Zygorhynchus heterogamus* with a hypothesis for sporangial wall dissolution
R. E. Edelmann and K. L. Klomparens

Development/Morphology

72–81 Production of hyphopodia by wild-type and three transformants of *Gaeumannomyces graminis* var. *graminis*
L. Epstein, S. Kaur, T. Goins, Y. H. Kwon, and J. M. Henson

82–88 Ontogeny of the ascoma of *Glomerella cingulata*
F. A. Uecker

Ecology

89–95 Persistence of basidiospores and sclerotia of ectomycorrhizal fungi and *Morchella* in soil
S. L. Miller, P. Torres, and T. M. McClean

Molecular Evolution

96–107 Phylogenetic relationships among coprinoid taxa and allies based on data from restriction site mapping of nuclear rDNA
J. S. Hopple, Jr. and R. Vilgalys

Pathology

108–112 Isolates of *Phytophthora colocasiae* from Hainan Island in China: Evidence suggesting an Asian origin of this species
K. M. Zhang, F. C. Zheng, Y. D. Li, P. J. Ann, and W. H. Ko

113–116 Identification of *Armillaria* species in California
K. A. Jacobs, J. D. MacDonald, F. W. Cobb, Jr., and K. Wells

Physiology/Biochemistry

117–120 Identification of metabolites produced from acridine by *Cunninghamella elegans*
J. B. Sutherland, F. E. Evans, J. P. Freeman, A. J. Williams, J. Deck, and C. E. Cerniglia

Systematics

121–130 *Phellinus sulphurascens* and the closely related *P. weirii* in North America
M. J. Larsen, F. F. Lombard, and J. W. Clark

131–133 *Vaccinium* fungi: *Mycosisymbrium cirrhosum gen. et sp. nov.*
L. M. Carris

134–137 Neotropical Ascomycetes 4. *Pseudotrichia guatopoensis*, a new species from Venezuela, with a key to species in the genus
S. M. Huhndorf

113–116 Identification of *Armillaria* species in California
K. A. Jacobs, J. D. MacDonald, F. W. Cobb, Jr., and K. Wells

Physiology/Biochemistry

117–120 Identification of metabolites produced from acridine by *Cunninghamella elegans*
J. B. Sutherland, F. E. Evans, J. P. Freeman, A. J. Williams, J. Deck, and C. E. Cerniglia

Systematics

121–130 *Phellinus sulphurascens* and the closely related *P. weirii* in North America
M. J. Larsen, F. F. Lombard, and J. W. Clark

131–133 *Vaccinium* fungi: *Mycosisymbrium cirrhosum gen. et sp. nov.*
L. M. Carris

134–137 Neotropical Ascomycetes 4. *Pseudotrichia guatopoensis*, a new species from Venezuela, with a key to species in the genus
S. M. Huhndorf

138–145 Entolomataceae in North America III: New taxa, new combinations and notes on species of *Rhodocybe*
T. J. Baroni and E. Horak

146–150 *Panus conchatus*: Cultural characters and mating data
J. E. Johnson and A. S. Methven

151–156 *Cylindrocladium tenue comb. nov.* and two other *Cylindrocladium* species isolated from diseased seedlings of *Phellodendron amurense* in Japan
T. Watanabe

157–163 The ability of *Tilletia fusca* to hybridize with the wheat bunt species under axenic conditions
L. M. Carris and P. M. Gray

Memorial

164–167 Edith Katherine Cash, 1890–1992
L. R. Batra

Instructions to Authors 1994

168–172

No. 2 March–April 1994

Issued 12 May 1994

Annual Lecture

173–180 Basidiomycetes and the new genetics
P. A. Lemke

Ecology

181–186 Effect of ozone on the development of vesicular-arbuscular mycorrhizae in sugar maple saplings
L. Duckmanton and P. Widden

187–198 Abundance and diversity of microfungi in leaf litter of a lowland rain forest in Costa Rica
G. F. Bills and J. D. Polishook

199–202 Observations of *Zygorhizidium* sp. parasitic on *Pediastrum duplex*
M. S. Doggett and D. Porter

Genetics

203–208 Electrophoretic karyotype differences between two subspecies of *Fusarium acuminatum*
R. Nagy and L. Hornok

209–211 The mating system of *Melanotus textilis*
G. R. Walker, A. Nabors, S. Gelinas, and J. F. Ammirati

Molecular Evolution

212–216 18S rRNA gene sequences and supraordinal classification of the Erysiphales
G. S. Saenz, J. W. Taylor, and A. Gargas

Physiology/Biochemistry

217–226 Spore germination and hyphal growth of arbuscular mycorrhizal fungi in relation to soil aluminum saturation
H. Bartolome-Esteban and N. C. Schenck

227–234 Regulation of extracellular proteinase production in an ectomycorrhizal fungus *Hebeloma crustuliniforme*
H. Zhu, B. P. Dancik, and K. O. Higginbotham

235–241 Cytoplasmic water-soluble β-glucans in *Achlya*: response to nutrient limitation
J. H. Lee and J. T. Mullins

242–249 Analysis of the protein pattern of *Gremmeniella abietina* with special reference to protease activity
R.-L. PetÃistÖ, T. E. Rissanen, R. J. Harvima, and E. O. Kajander

Systematics

250–253 A new species of *Gelasinospora* with multiple germ pores
J. C. Krug, R. S. Khan, and R. S. Jeng

254–258 *Letendraeopsis palmarum*, a new genus and species of loculoascomycetes
K. F. Rodrigues and G. J. Samuels

259–262 Variation in colony characteristics of *Penicillium* strains resulting from minor variations in culture conditions
T. Okuda

263–265 *Uredo gardenicola*, a new rust fungus on *Gardenia* from Indonesia
M. Kakishima and T. Kobayashi

266–269 Neotropical Ascomycetes 5. Hypostromataceae, a new family of Loculoascomycetes and *Manglicola samuelsii*, a new species from Guyana
S. M. Huhndorf

New Techniques

270–274 Assessment of species distributions in *Pleurotus* based on trapping of airborne basidiospores
R. Vilgalys and B. L. Sun

275–280 Preserving cultures of wood-decaying Basidiomycotina using sterile distilled water in cryovials
H. H. Burdsall, Jr. and E. B. Dorworth

281–289 Microscopical observations on the influence of the cooling rate during freeze-drying of conidia
C. S. Tan, IJ. A. Vlug, J. A. Stalpers, and C. W. van Ingen

290–295 A simple method for the in vitro production of pseudothecia in species of *Capronia*
W. A. Untereiner

Memorial

296–298 Mildred K. Nobles, 1903–1993
J. Ginns

Foray Report

299–300 The 1993 MSA annual foray—Georgia
J. E. Adaskaveg

Book Reviews

301–310

No. 3 May–June 1994
Issued 21 July 1994

Review

311–326 Mycorrhizas—Integrated development between roots and fungi
R. L. Peterson and M. L. Farquhar

Cell Biology/Ultrastructure

327–335 Laminin-binding sites on cell walls of the entomopathogen *Nomuraea rileyi* associated with growth and adherence to host tissues
J. C. Pendland, C. Lopez-Lastra, and D. G. Boucias

336–342 The adhesive droplet of capilliconidia of *Basidiobolus ranarum* exhibits unique ultrastructural features
M. J. Dykstra and B. Bradley-Kerr

343–349 Ultrastructure of spore germination in *Gigaspora albida* (Glomales)
L. C. Maia, J. W. Kimbrough, and G. L. Benny

Development/Morphology

350–356 The fractal dimension of young colonies of *Macrophomina phaseolina* produced from microsclerotia
J. D. Mihail, M. Obert, S. J. Taylor, and J. N. Bruhn

357–370 Ascomal development in *Melanospora zamiae*
T.-K. Goh and R. T. Hanlin

Ecology/Biogeography

371–375 Nematophagous fungi from cattle manure in four states of decomposition at three sites in Nova Scotia, Canada
C. J. Mahoney and D. B. Strongman

376–385 The foliar fungal endophytes of the Amazonian palm *Euterpe oleracea*
K. F. Rodrigues

386–391 Some wood-inhabiting yeasts of trembling aspen (*Populus tremuloides*) from Alberta and northeastern British Columbia
L. J. Hutchison and Y. Hiratsuka

Genetics

392–396 *Didymium ovoideum* culture and mating system
J. Clark and S. L. Stephenson

Pathology

397–400 Stability of *Colletotrichum truncatum* in culture influences mycoherbicide efficacy
D. J. Daigle and P. J. Cotty

401–407 Population structure of *Armillaria* species in several forest types
J. J. Worrall

Physiology/Biochemistry

408–415 Mechanism and rate of sugar uptake by *Acremonium typhinum*, an endophytic fungus infecting *Festuca rubra*: Evidence for presence of a cell wall invertase in endophytic fungi
C. K. Lam, F. C. Belanger, J. F. White, Jr., and J. Daie

416–420 Effects of high temperature on physiological processes leading to sexual reproduction in *Phytophthora parasitica*
L. L. Chern and W. H. Ko

Systematics

421–435 Morphological and macromolecular characterization of *Hypocrea schweinitzii* and its *Trichoderma* anamorph
G. J. Samuels, O. Petrini, and S. Manguin

436–446 Three host-specific *Xylaria* species
T. Laessøe and D. J. Lodge

447–450 *Kionochaeta pini sp. nov.* and *Verrucophragmia splendens gen. nov.* from leaf litter in South Africa
P. W. Crous, M. J. Wingfield, and W. B. Kendrick

451–453 *Orbilia fimicola*, a nematophagous discomycete and its *Arthrobotrys* anamorph
D. H. Pfister

New Techniques

454–457 The effect of pH on staining of oospores of *Peronospora viciae* with tetrazolium bromide
D. J. van der Gaag

458–460 A technique for the extraction and purification of viable *Plasmodiophora brassicae* resting spores from host root tissue
L. A. Castlebury, J. V. Maddox, and D. A. Glawe

Financial Report

326

No. 4 July–August 1994
Issued 20 September 1994

Review

461–473 Ascomycete Spore killers: Chromosomal elements that distort genetic ratios among the products of meiosis
N. B. Raju

Cell Biology/Ultrastructure

474–477 Electron microscopy of amoeba-capturing *Dactylella tylopaga*, showing the morphology of a basidiomycete
M. Saikawa, N. Baba, and Y. Aoki

478–485 Localization of β (1 → 3) glucans in spore and hyphal walls of fungi in the Glomales
V. Gianinazzi-Pearson, M-C. Lemoine, C. Arnould, A. Gollotte, and J. B. Morton

486–493 Teliospore germination and nuclear behavior of *Puccinia rutainsularа*, a microcyclic Hawaiian rust
D. E. Gardner

494–501 Ballistosporic conidia in *Basidiobolus ranarum*: The influence of light and nutrition on the production of conidia and endospores (sporangiospores)
M. J. Dykstra

Ecology

502–506 Inhibition of selected hypocrealean fungi by lichen secondary metabolites
J. D. Lawrey, A. Y. Rossman, and R. Lowen

507–510 Spore dispersal of ectomycorrhizal fungi on a glacier forefront by mammal mycophagy
E. CÁzares and J. M. Trappe

Genetics

511–516 Postmeiotic mitosis in the basidia of *Suillus granulatus*: Implications for population structure and dispersal biology
K. M. Jacobson and O. K. Miller, Jr.

517–523 Heterothallism in *Sphaerotheca fuliginea*
M. T. McGrath

524–539 Pairing tests in the *Phellinus pini* group
M. Fischer

Molecular Evolution

540–546 Sequence similarity of mating type idiomorphs: A method which detects similarity among the Sordariaceae fails to detect similar sequences in other filamentous ascomycetes
C. R. Cisar, D. O. TeBeest, and F. W. Spiegel

Pathology

547–554 Effect of glucose and biotin on the growth and sporulation of *Fusarium* species, especially pathogenic and nonpathogenic isolates of *Fusarium oxysporum*
S. N. Smith, D. Jeffers, and J. E. DeVay

555–560 Partial purification and characterization of a toxic component of *Amanita smithiana*
V. Pelizzari, E. Feifel, M. M. Rohrmoser, G. Gstraunthaler, and M. Moser

Physiology/Biochemistry

561–563 *trans*-2-Nonenal, the cucumber odor of mushrooms
W. F. Wood, M. L. Brandes, R. L. Watson, R. L. Jones, and D. L. Largent

564–570 Partial characterization of the cellular proteolytic system of *Schizophyllum commune*
W. W. Lilly, R. E. Bilbrey, B. L. Williams, L. S. Loos, D. F. Venable, and S. M. Higgins

Systematics

571–580 Endophyte-host associations in grasses. XX. Structural and reproductive studies of *Epichloë amarillans sp. nov.* and comparisons to *E. typhina*
J. F. White, Jr.

581–585 A reappraisal of *Areolospora bosensis*
J. C. Krug, R. S. Khan, and S. Udagawa

New Technique

586–587 Small mammal exclosures for studies of hypogeous fungi
M. North and J. Trappe

Memorial

588–591 René Pomerleau, 1904–1993
Y. Dalpé and J. Ginns

No. 5 September–October 1994
Issued 23 November 1994

Cell Biology/Ultrastructure

593–601 Ultrastructure of mitosis and clamp formation in the somatic hyphae of *Pleurotus ostreatus*
K. S. Yoon and Y. S. Kim

602–606 Scanning electron microscopy of *Stilbella annulata*
C. Roux, A. J. Botha, and K. T. Van Warmelo

607–614 Ultrastructure of ascus arrangement and ascospore development in *Ophiostoma seticolle*
P. W. J. van Wyk and M. J. Wingfield

615–625 Zoospore ultrastructure of *Monoblepharis polymorpha*
M. R. Noyes Mollicone and J. E. Longcore

Development/Morphology

626–629 Observations on the morphology of germ tubes produced by conidia of powdery mildew fungi on the surface of water
A. Sivapalan

Ecology/Biogeography

630–634 First record and notes on *Glomus coronatum* in Poland and Germany
J. Błaszkowski

635–647 Infection studies of *Discula quercina*, an endophyte of *Quercus garryana*
D. Wilson and G. C. Carroll

648–655 Assemblages of endophytic fungi in coppice shoots of *Castanea sativa*
M. Bissegger and T. N. Sieber

Molecular Biology

656–659 Characterization of double-stranded RNA from *Tilletia indica*
R. J. Beck, O. P. Smith, P. W. Tooley, G. L. Peterson, and M. R. Bonde

Pathology

660–666 Self-sterile isolates of *Pythium* mate with self-fertile isolates of *Pythium ultimum*
G. A. Saunders and J. G. Hancock

Physiology/Biochemistry

667–673 Differential growth of *Atkinsonella* species on host grass calli
M. Lu and K. Clay

674–683 Axenic culture of *Anisogramma anomala*: Evidence for self-inhibition of ascospore germination and colony growth
J. K. Stone, J. N. Pinkerton, and K. B. Johnson

Systematics

684–690 *Neohypodiscus nom. nov.* for *Hypodiscus*
J. D. Rogers, Y.-M. Ju, and T. Laessøe

691–695 Two new species of homothallic *Mucor* in Japan
T. Watanabe

696–699 Nematode-trapping in *Pleurotus tuberregium*
D. S. Hibbett and R. G. Thorn

700–703 *Anthostomella formosa* var. *abietis var. nov.* and notes on *Apiorhynchostoma*
J. D. Rogers, J. Stone, and Y.-M. Ju

Memorial

704–711 William Bridge Cooke, 1908–1991
M. A. Vincent, M. J. Powell, and H. H. Burdsall, Jr.

Book Reviews

712–724

No. 6 November–December 1994

Issued 25 January 1995

Cell Biology/Ultrastructure

725–732 Postmeiotic nuclear behavior in *Lentinus, Panus,* and *Neolentinus*
D. S. Hibbett, S. Murakami, and A. Tsuneda

733–740 Ultrastructure of *Synchytrium endobioticum* resting spores and enhancement of germination using snails
M. C. Hampson, A. F. Yang, and A. K. Bal

Ecology

741–742 An attempt to quantify relative mycelial development of *Phanerochaete chrysosporium* using the fluorescein diacetate spectrophotometric assay
K. K. Olsen and E. L. Schmidt

Genetics

743–757 Mating systems in hymenomycetes: new reports and new species
R. H. Petersen and S. A. Gordon

758–761 How should the infertility of interspecies crosses be designated?
D. D. Perkins

Molecular Biology/Evolution

762–772 A systematic assessment of *Morchella* using RFLP analysis of the 28S ribosomal RNA gene
B. A. Bunyard, M. S. Nicholson, and D. J. Royse

Pathology

773–776 An endophyte of *Achnatherum inebrians,* an intoxicating grass of northwest China
G. W. Bruehl, W. J. Kaiser, and R. E. Klein

Physiology/Biochemistry

777–780 Factors affecting oospore germination of heterothallic *Pythium splendens*
L. Y. Guo and W. H. Ko

781–786 Spore germination in *Phycomyces blakesleeanus*
F. Rivero and E. CerdÁ-Olmedo

787–794 Fractionation of extracellular matrix components from urediospore germlings of *Uromyces*
T. D. Moloshok, B. T. Terhune, J. S. Lamboy, and H. C. Hoch

Systematics

795–801 Materials for a hypogeous mycoflora of the Great Basin and adjacent cordilleras of the Western United States II. Two subemergent species *Cortinarius saxamontanus, sp. nov.*, and *C. magnivelatus*, plus comments on their evolution
R. Fogel

802–812 Sexual compatibility and taxonomy of a new species of *Epichloë* symbiotic with fine fescue grasses
A. Leuchtmann, C. L. Schardl, and M. R. Siegel

813–838 The lichen genus *Caloplaca* in North and Central America with brown or black apothecia
C. M. Wetmore

839–866 Agaricicolous species of *Hypomyces*
C. T. Rogerson and G. J. Samuels

867–869 *Cannabis* pathogens VII: A new species *Schiffnerula cannabis*
J. M. McPartland and S. J. Hughes

870–878 *Cannabis* pathogens X: *Phoma, Ascochyta,* and *Didymella* species
J. M. McPartland
